Product Description

Pig Brig Trap System

The Pig Brig trap system is easy to use, simple to transport and set up, doesn't require cell service, and is truly multi-catch.

- Beefy Boar Shield that is abrasion-resistant and treated for UV protection.
- Easy-open net seam to allow trailering or net placement around vegetation.
- Net has a dynamic drop strength of over 8,000 ft-lb.
- Awesome on-call Trap Support team and materials.

boar shield or type unknown

BASE NET WITH BOAR SHIELD

A 20-ft diameter base net with a dynamic drop strength of more than 8,000-ft-lb as well as a vinyl-coated easy pull cable seam that makes opening and closing your trap a piece of cake. The boar shield is a heavy-duty, double wall of net that keeps big boars inside.

hardware kit or type unknown

HARDWARE KIT

This kit includes everything you need to set the net: 2-ft ground anchors, ground anchor driver, anchor stakes, double-hooked cam straps, T-post mounts and zip ties. T-posts are not included. If you use trees, you may not need them.

trap cap or type unknown

TRAP CAP (OPTIONAL)

A 2-ft-wide trap cap—that can be clipped or sewn in—covers approximately 30% of the net opening, keeping

jumpers where they belong: inside the trap.
